4. FIRST AID MEASURES

Inhalation	If woozy, move to an area free from the risk of further exposure. If symptoms persist obtain immediate medical attention.
Skin Contact	Flush skin with plenty of soap and water for at least 5 minutes. Seek medical attention in the event of continuing irritation. Remove and wash contaminated clothing and shoes before re-use.
Eye Contact	Immediately rinse with running water for at least 5 minutes. Remove contact lenses if present and easy to do. Continue rinsing. If irritation occurs, seek medical attention.
Ingestion	Rinse mouth with water. Never give anything by mouth to an unconscious person. If in doubt, contact a Poison Control Center or seek medical attention.

5. FIRE-FIGHTING MEASURES

Extinguishing Media	Use water spray, alcohol-resistant foam, dry chemical, or carbon dioxide.
Inappropriate Media	The use of a heavy water stream may spread fire.
Special Hazards Arising from the Substance or Mixture	Carbon oxides
Advice For Fighters	Wear self-contained breathing apparatus and full protective clothing for firefighting if necessary.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures	Evacuate personnel to safe areas. Wear suitable PPE as described in section 8. Ensure adequate ventilation and remove all sources of ignition. Don't touch or walk through the spilled material.
Environmental Precautions	Prevent migration into groundwater, sewers, or streams. Land spills may require excavation of contaminated soil. Material should not be released into the environment.

Methods and Materials for containment and Clean-up

Contain spill if possible using absorbent pads, pillows, loose sorbent, or solvent absorbent. Use non-sparking tools to mix absorbent with spilled material, then clean using shovel or vacuum cleaner safe from electrostatic discharge.

7. HANDLING AND STORAGE

Handling Precautions

Use in a well ventilated area, using good industrial hygiene practices. Avoid contact with eyes, skin, and clothing, and wear proper PPE (see section 8). Keep away from sources of ignition – no smoking. Take measures to prevent build of electrostatic charge.

Storage Requirements

Store material at ambient temperature and pressure. Keep away from sources of direct heat and moisture. Keep container tightly closed when not in use. Containers can retain product residue after being emptied. Always obey hazards warnings and handle empty containers as though they were full. Avoid contact with oxidizing agents, reducing agents and strong bases.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls

Provide local exhaust ventilation to keep airborne concentrations below the recommended occupational exposure limits.

Personal Protective Equipment

HMIS PP, C | Safety Glasses, Gloves, Apron

Hand: Chemical resistant gloves (e.g. nitrile, latex, butyl rubber).

Eye: Safety glasses with side shields or safety goggles.

Skin: Impervious clothing, including but not limited to apron, full body suit, chemical resistant shoes or shoe covers. Use long sleeves and long pants at a minimum.

Respiratory: If concentrations are above the occupational exposure limits, an approved respirator should be used (air-purifying or air supplied).
